

Wireless Video Dolly **PRG PROJECTS**

Choreographed Video

These wireless video dollies are custom made wheeled LED-carts, which can be moved by one single person. They are battery powered and the number of receiving units that can be connected to each transmitter is unlimited. With a latency of 1ms lining up multiple units results in a perfect, frame accurate display. These wireless video dollies make it easy to create a video-background or video animated elements in no time during a show or on stage.
